Green Cooling

Specification

Type of thermoelectric cooling assembly	180-12-AA					
Purpose	Thermoelectric assembly 180-12-AA is a solid state unit meant for cooling or temperature stabilization purposes for general application.					
Technical parameters						
Maximal cooling capacity (Watts)	Operational cooling capacity (Watts)	Operating voltage (Volts, DC)	Operating current (Amps)	Length (mm)	Width (mm)	Height (mm)
151,0	110,0	12,0	24,0	480,0	150,0	155,0

Maximal cooling capacity corresponds for zero difference between temperature of cold and hot heat sinks
 Operational cooling capacity corresponds for zero difference between temperature of cold heat sink and ambient temperature for ambient 21 deg.C

Working temperature range (°C)	- 10 ÷ +70	Fans		
Dimension tolerance	± 0,5 mm	Quantity	Hot side	Cold side
Thermal and electrical parameters tolerance	± 10%		1	1
Net weight, kg	5,7	Fan operating voltage/current	12/0,3	12/0,3
